

564 E Electric Fireplace and Insert

fireplace**xtordinaire**™

*Shown with Classic Arch face and
J. C. Huffman Williamsburg custom cabinet*

Add the Beauty of a Fireplace in Less Than An Hour!

The most extraordinary feature of this fireplace is the beautifully detailed face designs that surround 564 square inches of glass* showcasing the glowing flames and enhancing the fire view. With low energy LED lights built into the log set and a ember bed, the appearance resembles burning wood and the flames simulate the look of a live wood fire. The Fireplace Xtrordinair 564 Electric fireplace can be added to any room you choose in about an hour and is ideal if you live in an apartment or condominium where no gas line or chimney access is available.

The 564 E simply plugs into a standard wall outlet. A built-in 5,000 BTU heater with an air circulating fan provides gentle heat for your room up to 400 sq. ft. This feature makes the 564 E ideal for providing supplemental heat to bedrooms, offices and other intimate spaces.

How Green Are Electric Fireplaces?

There's no secret that today's homeowners are looking for sustainable solutions, yet they still want a product that satisfies their sense of style and desire for luxury. The 564 Electric Fireplace does both.

You can enjoy the ambiance of the flames year-round without the heat, thus reducing the amount of energy consumed. Or with the heater turned on, the 564 Electric fireplace operates at 100% efficiency – every bit of power used goes into warming the room. The 564 Electric Fireplace produces no carbon monoxide or emissions because there is no combustion.

Easy To Live With

Unlike a normal fireplace, the glass on the 564 Electric Fireplace does not get hot to touch, reducing hazards for children and increasing safety all around. The easy-to-use remote control makes operating your fireplace simple. The features on this remote control allow you to adjust every aspect of your fireplace, from heat output to several display options. This functional remote control makes owning a Fireplace Xtrordinair electric insert even more enjoyable and practical.

Economical To Use!

Cost to operate averages approximately 3 cents an hour with the flame on for ambiance and 8 cents an hour when both flame and heater are on**. A 15 AMP, 110 VOLT wall outlet is required. A dedicated circuit is preferred, but not essential.

INTERIOR CHOICES

Four different decorative interiors are included with each fireplace. They include a glowing logset with glowing embers, and a selection of three translucent colored media in Platinum, Orange and Mixed Glass.

DECORATIVE FACES

The “Original” Fireplace Xtrordinair **CLASSIC ARCH™** face is our most popular fireplace face. The graceful arched opening highlights the viewing glass. This combination of a curved glass area and arched top line has proven timeless in its appeal to homeowners across North America. The delicate design of the heat exchange area has the appearance of woven lace, a design departure from the horizontal louvers common to inexpensive fireplaces.

Metallic Black Paint -36 1/8” W x 29” H

The **FRENCH COUNTRY™** arched face is a perfect option with your Fireplace Xtrordinair electric fireplace. The French Country face frames the fire and adds a charming look to your room. The unique arch with its floral garland design comes in metallic black paint.

Metallic Black Paint -36 1/8” W x 29” H

The **METROPOLITAN™** fireplace face design features the same beautiful grillwork of the Classic Arch Face, but in a more linear, contemporary style. The beveled edges of the Metropolitan Face also create an intriguing, three-dimensional appearance.

Metallic Black Paint - 36 1/8” W x 29” H

The **ARTISAN™** hand-hammered face design and craftsmanship are reminiscent of the ironwork in the Great Lodges of Europe and America. The Artisan face is hand-forged and hammered by master blacksmiths in Europe. Each face bears unique, subtle characteristics from the hands of its creator, making it an individual work of art in iron.

The wrought iron window detail of chiseled and twisted steel accents the soft curve of a large glass viewing window.

Charcoal Paint -
36 1/8"W x 29" H

Hand-Rubbed Bronze Patina -
36 1/8"W x 29" H

The **ARCHITECTURAL™ DOORS**

offer an elegant collection of rectangular and arched black painted double doors for the 564 E Electric Fireplace. These beautiful the doors, which can be opened, create the illusion of a much larger fireplace.

Architectural™ Rectangular Double Doors
in Metallic Black Paint Finish
36 1/8"W x 29" H

Architectural™ Arched Double Doors
in Metallic Black Paint Finish
36 1/8"W x 29" H

Matrix™ Face in Brushed Nickel
Finish 47"W x 29 1/2" H

The limited edition **MATRIX™** face offers a fresh, modern look to electric fireplaces. The Matrix design features offset, layered crimson pinstripe over black in a structured geometric grid.

Note: If you are installing the Matrix face flush with the floor, the 564 Electric Fireplace **MUST BE RAISED 3/4"** to accommodate the size of the face and provide airflow beneath the unit.

INSTALLATION CHOICES

Installation With A Fireplace Cabinet

Sterling™ Wood Cabinets

If you are looking for exceptional value and a quick, easy installation, add one of our Sterling Fireplace Cabinets (available in oak or walnut veneer). These cabinets allow the fireplace to be installed against any wall in your home. Fireplace Cabinets make it easy to relocate your fireplace at any time, so you can take the beauty and heat to any other room or house.

Metro Stainless Steel Mantel™

As an alternative to wood cabinet mantles, the Metro Mantel is constructed of brushed nickel sheet metal with a textured black power-coated hearth base. As you can see, the Metro Mantel is a striking contemporary accessory to the 564 E. All Architectural Double Door faces as well as the rectangular Metropolitan beveled faces will fit this fireplace and this mantle.

Custom Pre-Built Mantel

shown with Artisan™ Charcoal Painted Face.

Ask your Fireplace Xtordinaire dealer about other mantel options for the 564 E Electric Fireplace, such as the Windham™ Mantel manufactured by J. C. Huffman Co. shown here. Visit www.jchuffman.com for details on their mantel options.

Installation Without A Fireplace Cabinet

If you want to achieve a flush look, you have the option of building in or framing around your 564 E. When framing the enclosure you must follow the MINIMUM internal opening dimensions shown below. Before actually beginning the work, please consult with your dealer or go online to www.fireplacex.com for complete instructions.

The fireplace must be able to slide out for service. You must also provide a standard 15 AMP, 110 Volt wall outlet on the inside of the enclosure. It is preferable that the wall outlet be on its own breaker.

Fireplace Dimensions:

Depth
10-1/16"

Width
30-1/4"

Wide to Flange
32-1/4"

Height
27"

Clearances To Combustibles

(A) Flush To Floor Framing

(B) Raised Framing

CAUTION - Clearance for air circulation beneath the fireplace is critical. DO NOT INSTALL THE FIREPLACE DIRECTLY ON CARPET, OR SIMILAR SURFACES WHICH MAY RESTRICT AIR CIRCULATION.

Installation Into An Existing Fireplace

The 564™ E F/I can also be installed into any existing fireplace opening and utilized as an insert! By adding the optional 8" Panel Set you can convert your old, inefficient fireplace into a wonderful supplemental heat source. This unit will fit most masonry or zero clearance fireplaces.

Panel Covers
44-1/4" W x 38-3/8" H

*Not available for the
Matrix Face*

Warranty

Your 564 E Electric Fireplace is backed by up by a network of Specialty Hearth Dealers and certified factory trained Installers.
